DEPARTMENT HEAD CHAIR
CHEMICAL ENGINEERING

The College of Engineering invites nominations and applications for the position of Department Head Chair in the Department of Chemical Engineering. The College seeks an individual who will provide innovative and energetic leadership with strong administrative skills and a strong commitment to higher education. The successful candidate will be the holder of a newly-acquired Department Head Chair and must possess academic credentials of the highest quality, have a strong background in research, and have an established and widely recognized reputation in Chemical Engineering. An earned doctorate is required.

The Department holds the unique distinction of being one of only two endowed departments at Penn State with an initial principal of $5 million. This endowment and the recently endowed Department Head Chair presents dramatic opportunities for discovery and growth.

The Department currently has 19 full-time faculty along with 3 vacant positions, and it has annual research expenditures of over $3.5 million, with major thrusts in applied thermodynamics, biotechnology/biochemical engineering, catalysis and surface phenomena, optimization techniques, physiological transport studies, polymers and colloids, transport phenomena, and tribology. The Chemical Engineering Department has been a leading innovator in multi-disciplinary activities, both within Penn State and through partnerships with other universities and industry.

Nominations and applications, including curriculum vitae, will be sought until January 15, 2000. However, applications will be considered until the position is filled. It is intended that the position will be filled by the beginning of the 2000-2001 academic year. Applications will be viewed with the strictest of confidence. Inquiries should be directed to: **DR. M. ALBERT VANNICE, CHAIR, CHEMICAL ENGINEERING HEAD SEARCH COMMITTEE, COLLEGE OF ENGINEERING, THE PENNSYLVANIA STATE UNIVERSITY, 101 HAMMOND, CODE AICHE, UNIVERSITY PARK, PA 16802.** Inquiries can be made via E-mail to mavche@engr.psu.edu or by phone at: (814) 863-4803. The Chemical Engineering Department's web page is at http://fenske.che.psu.edu

Penn State is committed to affirmative action, equal opportunity and the diversity of its workforce.
